Redeeming Procedure

In order for you to redeem an available cashback or savings balance, you must present your *Lifestyle Loyalty Club* card (applicable to all tiers) BEFORE your transaction is processed.

After every transaction at Lifestyle Home Garden you will be rewarded with your applicable percentage cashback based on your tier and the specials available on the specific day of the transaction (as detailed above). The loading of cashback can take up to 48 hours to process and to be made visible on your card balance and transaction history.

Once you have accumulated cashback, you will have money available for you to redeem at Lifestyle Home Garden. You must present your *Lifestyle Loyalty Club* card before the transaction takes place. You may then scan your products and redeem your cashback, either for the entire shopping cart or part of the shopping cart – depending on the cashback available on your card.

Credits and Returns

When returning products, you will be given a credit for your shopping and accordingly the transaction will be reversed. Your slip from the specific purchase as well as your loyalty card must be scanned at the tills when receiving a credit. Thereafter, your cashback rewards will also be reversed for that specific transaction. If you would prefer, we can also credit your returns straight onto your *Lifestyle Loyalty Club* card by adding the credited amount to your savings balance. Please allow a maximum of 48 hours for this process to take place.

Personalised Customer Experience

At Lifestyle Home Garden we strive to provide our customers with the most enjoyable and relevant shopping experience possible. As such, we encourage you to keep your *Lifestyle Loyalty Club* card purely for your own personal use, and discourage sharing of loyalty cards with friends and family. This way we can ensure that our communication is ultimately tailored to your needs and preferences specifically and not those of other shoppers.

Lifestyle Home Garden accepts no responsibility for loss, damage or exploitation of cards borrowed or shared amongst customers, in addition to the possible receiving of unnecessary and irrelevant communication.
