Pruning of Plants

Take the guess work out of pruning plants. Good pruning can improve the yield of plants but improves their general health. It is vital to prune each plant correctly and at the right time of the year.

Saturdays: 6 July
09h00 to 16h00 – R500

Weekdays: 10 & 11 July 09h00 to 16h00 – R1200
Includes one day practical at Victoria Yards.

Landscape Design

Laying out a garden correctly is vital to ensure that the garden not only works but looks aesthetically pleasing. A well-designed garden will cut down costs and maintenance.

Saturdays: 13, 20 & 27 July
09h00 to 16h00 – R2900

Weekdays: 23, 24 & 25 July
09h00 to 16h00 – R2900

To book: Please call 084 668 1568 / (011) 792-8244 or email: info@lifestylecollege.co.za • www.lifestylecollege.co.za

July Gardening Calendar

- 1. Prune roses** towards the end of July or the beginning of August. Treat bare stems with a fungicide and insecticide to kill insect eggs and fungus spores. Feed with an all-purpose fertiliser. Top up the mulch layer and water weekly.
- 2. Plant more** colourful winter flowering annuals to instantly fill gaps in garden beds, plump up hanging baskets or pots, and generally liven up the garden. Choose from the many winter annuals available at Lifestyle Home Garden.
- 3. July** is also the best time for planting and transplanting rose bushes and deciduous fruit and ornamental trees.
- 4. Bring the garden indoors** with our stunning selection of flowering and non-flowering indoor plants. Cut down on watering of indoor plants and feed flowering indoor plants fortnightly with a liquid fertiliser.
- 5. Plan and prepare beds** for spring vegetables. Enrich the soil quality by spreading a thick layer of good quality compost throughout the vegetable patch.
